

# Project to promote the Olympic and Paralympic Games in Chiyoda City

The Tokyo 2020 Games were used as an opportunity to promote comprehensive measures to further improve the appeal and character of the streets cityscape of Chiyoda City. Three key targets were defined: (1) A town rich with history, culture, and urban appeal, (2) A town that feels comfortable for all, and (3) For the success of the games. Several initiatives will be carried on as beneficial legacies\*.

\*Social and economic benefits that can be continued and enjoyed in the long term by the venue after the end of the games.

## ● An inclusive society

### Preparing signs, multilingual support

The design of park signs and other public signs in the city were updated to be more visible and blend in better with the surrounding scenery. Guide maps for spectators around the city were also given multilingual support, making things easier for foreign visitors.

Multilingual signs prohibiting smoking on the street

### Promoting rational consideration for people with disabilities

Sign-language interpreters were sent to sports events and other events organized by the city, along with the dispatch of sign-language and other interpreters, summary note-taking, and supporters for city residents to support communication with persons with disabilities.

## ● Sports

### Spreading and informing about parasports

Better understanding of persons with disabilities and parasports promotion was done through hands-on experiences of parasports, panel exhibitions of the Tokyo 2020 Paralympic Games, and displays and opportunities to try wheelchairs for sports use.

## ● Urban development

Kudanzaka Park

### Developing the area around a venue (Nippon Budokan)

Development was carried out of signs and such around Kudanzaka Park, the Daikancho-dori Street, and Chidorigafuchi Ryokudo (Greenway). Continuing the legacy of these rich natural environments, historical sceneries, and charming waterside spaces, they are made to welcome the visits of city residents and visitors alike.

### Improvement public and park toilets

Taking into account nearby town planning and facility aging, work was conducted to refresh public and park toilets, renewing a total of 32 public and park toilets, including multifunctional toilets.
